Compliance Timeline
The Compliance Timeline calculates time periods and dates according to the 2015 RESPA-TILA regulations.

Application Date – The date the loan application is received by the loan originator. The Send Initial Disclosure alert is generated on this date based on the completion of required fields on the loan file. Click the blue Lock icon to manually enter a date.

LE Due – The date the Loan Estimate must be disclosed to the borrower. Disclosure must take place within three business days (according to the Our Company Calendar setting) of the Application date (field ID 3142; the day when the LE is received with all of the required fields populated). The next business day after the Application Date is considered day one. Disclosure is required by the end of day three.

eConsent – The date when the borrower or borrowers consent to receive loan documents electronically. If there are multiple borrowers, the date when the last borrower provides consent. To view the eSign consent details, click the Lookup icon (magnifying glass).

Intent to Proceed – The date when you determine that the borrower intends to proceed with the loan application. This field is populated from the Received Date (field ID 3197) in the Intent to Proceed section on the Loan Estimate Page 1.

Earliest Fee Collection – The Earliest Fee Collection date is the later of the following two dates: the date you determine that the borrower intends to proceed (field ID 3197) or the LE Received date (field ID 3183) described in the LE Tracking section.

Earliest Closing – The earliest date when the loan can be closed.

Estimated Closing – This date is populated from the Estimated Closing Date in the loan file (field ID 763), but the date can be edited.

The LE Tracking section lists the Loan Estimates, Settlement Service Providers Lists, and Safe Harbor disclosures sent to the borrower.

LE Sent - The date the first version of the Loan Estimate is sent to the borrower.

Revised LE Received - The date the revised Loan Estimate is received by the borrower. This date varies based on the delivery method and upon the earlier occurrence of either a presumed receipt date or actual receipt date by the borrower.

SSPL Sent - Sent date of the earliest Settlement Service Providers List (SSPL) associated with a tracking record not excluded from the timeline. If disclosed with the Loan Estimate, the Sent Date of the earliest Loan Estimate not excluded from timeline. If disclosed with the Closing Disclosure, the Sent Date of the earliest Closing Disclosure not excluded from timeline.

Safe Harbor Sent - Sent date of the earliest Safe Harbor disclosure associated with a tracking record not excluded from the timeline. If disclosed with the Loan Estimate, the Sent Date of the earliest Loan Estimate not excluded from timeline. If disclosed with the Closing Disclosure, the Sent Date of the earliest Closing Disclosure not excluded from timeline.

CD Tracking
The CD Tracking section lists the Closing Disclosures and post consummation disclosures that have been sent to the borrower.

CD Sent - The date the first version of the Closing Disclosure is sent to the borrower.

CD Received - The date the first version of the Closing Disclosure is received by the borrower. This date varies based on the delivery method.

NOTE: When the Loan Estimate and Closing Disclosure are printed together, a pop-up message mentions that a Disclosure Tracking entry must be created if these disclosures are going to the borrower. If you click the Yes option, a Closing Disclosure tracking entry is created, because a Loan Estimate cannot be disclosed after a Closing Disclosure has been disclosed.

Revised CD Sent - The date the revised Closing Disclosure is sent to the borrower.

Revised CD Received - The date the revised Closing Disclosure is received by the borrower. This date varies based on the delivery method.

Post Consummation Disclosure Sent - The date the post-consummation Closing Disclosure is sent to the borrower. This is the most recent Closing Disclosure sent after the Disbursement Date (field ID 2563).
